

MICRO-K FIRE SUPPRESSION SYSTEM

MICRO - K

A PRODUCT OF ANSUL

PRODUCT FEATURES

- ZERO OZONE DEPLETION.
- ZERO GLOBAL WARMING POTENTIAL.
- HALON ALTERNATE.
- SHELF LIFE – 15 YEARS.
- PROTECTS CLASS A, B & C FIRES.
- NO – PIPING, PRESSURE VESSELS, NOZZLES REQUIRED.
- EXTINGUISHING TIME – 18 SECONDS.
- NON – TOXIC.
- LEAVE NO RESIDUES AFTER DISCHARGE.
- COMPACT & LIGHT WEIGHT.

- **EASY INSTALLATION.**
- **LOW MAINTENANCE COST.**
- **WIDE APPLICATION.**
- **TEMPERATURE RANGE - 40° TO + 54° C.**
- **ULC LISTED.**
- **HIGHLY COST EFFECTIVE COMPARED TO ANY OTHER TOTAL FLOODING SYSTEM.**

MICRO – K SYSTEM

MICRO – K --A unique fire suppression and total flooding system manufactured by ANSUL, USA, ULC approved and as per NFPA codes, **a highly cost effective system.**

It is an aerosol technology and is discharged in gaseous form, which is **non – toxic and does not leave any residues. Besides, NO piping and maintenance required.**

MICRO – K is available in 1.1 Kg. enclosures known as GENERATORS. 1.1 Kg. Generator will cover a volume of 9.4 cubic meters for ULC approved and 11 cubic meters for a non ULC approved. These generators are integrated with fire control panel and detectors to make a system. The system can have optional equipments like hooters, manual electric pull stations, magnetic door contacts etc.

This is widely used in cellular sites, server rooms, UPS rooms, safety storage Buildings, Flammable liquid storage rooms, switching and transformer rooms etc. and in various unmanned applications.
